ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

AUGUST 4-31, 1984

The UC Board of Regents at their July meeting approved the following changes in campus administrative positions:

• Thena Trygstad has been named Vice Chancellor—Personnel and Student Services. This appointment consolidates the responsibilities Trygstad has had for the past several years as Special Assistant to the Chancellor with those of the vacant Vice Chancellor position.

As Vice Chancellor—Personnel and Student Services, she is responsible for staff personnel, affirmative action, student health service, relations with students and staff organizations, and student business services (food service, bookstore, recreation, housing, and the Child Care/Study Center), as well as those responsibilities held by Trygstad as Special Assistant to the Chancellor.

Members of the campus community will have an opportunity to greet Trygstad at a reception in early fall.

Other approvals reflect changes in title and are an acknowledgement of the responsibility for day-to-day operations on the campus.

• David J. Ramsay has been redesignated Senior Vice Chancellor—Academic Affairs and Herbert W. Suelzle has been redesignated Senior Vice

(continued inside)

Several employees will find changes in their paychecks:

• The temporary reduction in employee contribution rates to UCRS ended July 1. The reduction was based on revised actuarial assumptions adopted in October, 1983, and lessened the impact of the end of the temporary $50 reduction in member contributions that had been in effect through December 31, 1983.

Because state appropriations for UCRS for 1984-85 do not include funding to support this benefit, the reduced contribution rates were not extended. Therefore, paychecks for July earnings reflected an increase in employee contribution rates to the levels in effect

(continued inside)

UCSF has expanded its clinical programs for AIDS patients with the August 1 opening of the new Adult Immunodeficiencies Clinic on the fifth floor of the Ambulatory Care Center.

Operated by the Department of Medicine in conjunction with the Hospitals and Clinics, the new program provides and coordinates a complete range of consultative and continuing care services for AIDS patients referred by physicians in the community. Patients requiring inpatient care are hospitalized on the medical service or another UCSF subspecialty service.

The new clinic, directed by Harry Hollander, MD, clinical instructor of medicine, was established with state funding to facilitate research of the UCSF AIDS Clinical Research Center. Patients coming to the clinic will thus contribute to, and benefit from, the latest research findings of the center. The center currently administers a serum and tissue bank for AIDS investigators and is establishing a computer data center. The new clinic is the third component of the research center.

The clinic complements the UCSF Kaposi's Sarcoma Clinic, which has seen some 150 patients since its opening three years ago, and works closely with the SFGH AIDS Clinic, where UCSF faculty also are conducting clinical research and testing treatments. For further information call the new Adult Immunodeficiencies Clinic at x3226.

In addition, UC researchers are reminded that applications for UC funds to support AIDS research are due in the Office of Health Affairs, UC-Berkeley, by August 31.

The funds will enable investigators currently working on AIDS to continue their research and will provide the opportunity for investigators in other areas of research to initiate AIDS studies.

UC faculty members, including clinical and adjunct professors on any of the nine UC campuses, are eligible to apply.

Information and application forms may be obtained from Contracts and Grants, 145 Irving Street, or by calling x2977. The funding period for this academic year is limited to eight months beginning in November, with no extensions possible.

(Newsbriefs continued)

The UCSF Stress and Anxiety Clinic now is offering therapy for persons suffering from social phobias as well as from general anxiety or post-traumatic stress disorders.

The specialized unit of the Langley Porter Psychiatric Institute (LPPI) has treated patients who have suffered from a serious traumatic life event—for example, death in the family, an assault or rape—and patients suffering from generalized severe anxiety.

In addition, the Stress and Anxiety Clinic now will treat patients who have fears of embarrassing themselves in a social or work situation in which they are called upon to perform in front of others. Examples include fear of eating or speaking in public, dating, blushing, performing sexually, or being observed while learning a new task.

UCSF therapists see patients for 12 to 24 sessions of brief dynamic psychotherapy. Comprehensive evaluation and assessment are made and treatment is attuned to the individual's needs. Those interested should call the LPPI Stress and Anxiety Clinic at x77-513.

The week of August 26 has been proclaimed National Respiratory Week by President Reagan. It will recognize the role that respiratory therapists play in the delivery of health care in the US.

The UCSF Respiratory Care Service invites the campus community to an open house on Wednesday, August 29, from 3:30 to 5:30 p.m. in Room M 69. Tours of the service will be given, and refreshments will be served. The service also will have displays in the Medical Sciences lobby that entire week.

Free Memorex cards for the IBM Mag Card II are available on a first-come, first-served basis from the School of Pharmacy, Room S 926. For further information contact Elma Belenson or Andrea Mazel at x1225.

(SFGH continued)

FRIDAY 17

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

TUESDAY 21

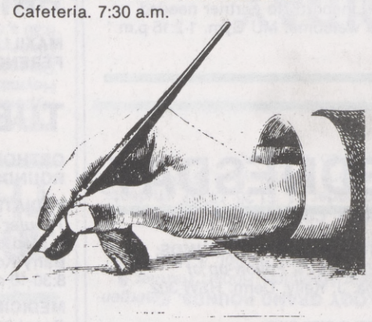
ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Lead Poisoning.* Charles Becker, Med., Occup. Med., Clin. Pharmacol. & Toxicol., SFGH. *Iron Deficiency in Infancy.* Peter Dallman, Ped. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Topic to be announced.* Morris Schambelan, Med., SFGH. Carr Aud. 11:30 a.m.

WEDNESDAY 22

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.



DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period Sept. 1-14, will be **Tuesday, Aug. 21, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

THURSDAY 23

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE. Rm. 4H40. 8:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *HBO Use & Abuse.* Abraham Aronow, Med. & Orthosurg. Carr Aud. 8:30-10 a.m.

FAMILY PRACTICE GRAND ROUNDS: *The Ubiquitous Mental Status Examination.* Leon Epstein, Psychr. & LPPI. Carr Aud. 12:30-1:30 p.m.

FRIDAY 24

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

TUESDAY 28

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Perinatal Asphyxia.* Joseph Kitterman, Ped. & CVRI. *Neonatal Intraventricular Hemorrhage.* J. Colin Partridge, Ped., SFGH. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Acute Lead Poisoning.* Charles E. Becker, Med. & No. Calif. Occup. Hlth. Cntr., SFGH. Carr Aud. 11:30 a.m.

THURSDAY 30

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE. Rm. 4H40. 8:30 a.m.

FRIDAY 31

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

Vol. 10 No. 15, Aug. 4-31, 1984

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

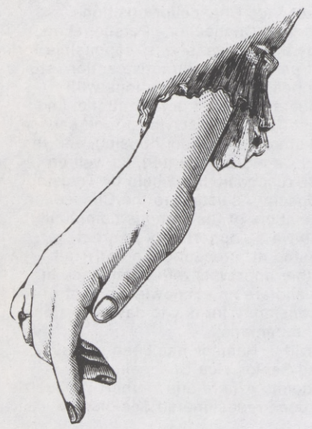
INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.*

INTRODUCTION TO HOSPITALS & CLINICS. For new employees in Hospitals & Clinics areas. Presented twice a month. S 536. 1:30-4:30 p.m. Supervisors call Nancy, x1401.

CLINICAL NUTRITION CONFERENCE: *Nutrition & Hypertension.* Robert Baron, Med. 7th fl. Moffitt Solarium. 4 p.m. To schedule cases for discussion and for further information contact Mel Heyman, MD, x2015.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Structure & Assembly of Transcriptionally Active Chromatin.* Abe Worcel, Bio., U Rochester. HSW 302. 4 p.m.

8 WEDNESDAY



HAND SURGERY CONFERENCE: *Toe to Hand Transfer.* Michael Brandner, Plast. Surg., St. Francis Med. Cntr. Rm. B2 & 3, Ralph K. Davies. 7-8 a.m.

DERMATOLOGY GRAND ROUNDS: *Human Hair: Health & Disease.* Chris Gummer, Derm. HSW 302. 8-9 a.m.

PRIMARY CARE LECTURE SERIES: *Diabetes Mellitus—Insulin Dependent & Non-Dependent.* John Karam, MRU & Clin. Endocrin., SFGH. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Delta Agent Hepatitis.* Robert K. Ockner, Med. & Gastro. *The Clinical Spectrum of Chlamydial Disease.* Julius Schachter, Epid. & Intl. Hlth. & Lab. Med. Cole Hall. 10:30 a.m.-noon.

BROWN BAG TOURS LECTURE SERIES: *Impact of Alzheimer's Disease.* Ida Martinson, Fam. Hlth. Care Nurs. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

COLE HALL CINEMA: *Zelig.* Children under 14, $1.25; UCSF students & MU members, $1.75; general, $2.25. Cole Hall. 5:30 p.m.*

10 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *Arterial Blood Bases & pH.* John Luce, Med. L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *Contacting Your Higher Self.* Rev. Joanna Cherry. N 517. Noon-1 p.m.

COLE HALL CINEMA: *Zelig.* Children under 14, $1.25; UCSF students & MU members, $1.75; general, $2.25. Cole Hall. 6:30 & 8:30 p.m.*

11 SATURDAY

UROLOGY GRAND ROUNDS. HSW 300. 8:30-10 a.m.

PLASTIC SURGERY TEACHING CONFERENCE: *Cartilage Homograft & Allograft.* Burton Brent, Reconstr. Plast. Surg., Palo Alto. S 1364. 10 a.m.

13 MONDAY

OTOLARYNGOLOGY DEPARTMENTAL ROUNDS. S 214. 7:30-10:30 a.m.

BRAIN TUMOR RESEARCH SEMINAR: *Topic to be announced.* Dennis Deen, Neurosurg. & Rad. Onc. S 214. Noon-1 p.m.

LABORATORY MEDICINE CORE CURRICULUM IN MICROBIOLOGY: *Bacterial Enteric Pathogens: E coli, Salmonella, Shigella, Yersinia, Vibrio, Aeromonas, Campylobacter.* Mary York, Microbio. L 535. 2-3:30 p.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 303. 3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Serological Survey of Parasites Among Tribal Ethiopians.* Donald Heyneman, Parasitol. L 535. 4-5 p.m.

PEDIATRIC GRAND ROUNDS: *Day Care: Options & Effects of Maternal Employment.* Pamela Kaiser, Ped. *Day Care Centers: Their Role in Childhood Infection.* Ann Yeager, Ped., Stanford. S 664. 8:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Update on Dioxin & Human Cancer.* Allan Smith, Public Hlth., UC-Berkeley. A 455. 8:30-10 a.m.

NEUROLOGY GRAND ROUNDS: *Advances in Down's Syndrome.* David Cox, Ped. & Biochem. S 664. 11 a.m.-12:05 p.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY ROUNDS. Carr Aud., SFGH. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Preventive Medicine: Osteoporosis.* Steven R. Cummings, Med. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Plain Film Assessment of Abdominal Pain.* Hideyo Minagi, Radiol. HSW 303. 5:30-6:30 p.m.

17 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *Distribution of Ventilation & Perfusion.* John Murray, Med. & Chest Serv., SFGH. L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

PEDIATRIC GRAND ROUNDS: *Twenty Years of Renal Transplantation: The UCSF Experience.* Donald Potter, Ped. *Second topic to be announced.* Malcolm Holliday, Ped. & Ped. Nephr. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Electrodiagnosis of Lumbosacral Radiculopathy: Its Use & Abuse.* Michael J. Aminoff, Neuro. S 664. 11 a.m.-12:05 p.m.

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Normal Aging of the Skin.* Bernard Gordon, Derm., Mount Zion. Herbst Hall, Mount Zion. Noon.

WOMEN'S RESOURCE CENTER SLIDE SHOW: *The History of Working Women in the United States.* Cita Cook, City College, SF. Toland Hall. Noon.*

PLASTIC SURGERY TEACHING CONFERENCE: *Hair Transplantation.* Roger Friedenthal, Plast. Surg. S 1364. 10 a.m.

27 MONDAY

OTOLARYNGOLOGY DEPARTMENTAL ROUNDS. S 214. 7:30-10:30 a.m.

BRAIN TUMOR RESEARCH SEMINAR: *Topic to be announced.* William Bodell, Neurosurg. S 214. Noon-1 p.m.

LABORATORY MEDICINE CORE CURRICULUM IN MICROBIOLOGY: *Antimicrobial Susceptibility Testing.* Geo. F. Brooks, Lab. Med. L 535. 2-3:30 p.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 303. 3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Role of the Laboratory in the Evaluation of Hypertension.* C. Diana Nicoll, Lab. Med. L 535. 4-5 p.m.

28 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.*

29 WEDNESDAY

DERMATOLOGY GRAND ROUNDS: *Biopsy Excision & Follow-up of Melanoma.* J. Kelly, Derm. HSW 302. 8-9 a.m.

PRIMARY CARE LECTURE SERIES. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Nonsteroidal Inflammatory Drugs & the Kidney.* David G. Warnock, Med., VAMC. *Cranial Arteritis-Polymyalgia Rheumatica.* Martin A. Shearn, Med. Cole Hall. 10:30 a.m.-noon.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

&SFGH

TUESDAY 7

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Child Abuse.* Moses Grossman, Ped., SFGH; Kathy Baxter-Stern, SF Child Abuse Council. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Management of Hyper- & Hypo-Osmolal States.* Alan I. Arieff, Med. & Nephr., VAMC. Carr Aud. 11:30 a.m.

THURSDAY 9

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Necrotizing Soft Tissue Infections.* Anthony Meyer, Surg., SFGH. Rm. 4H40. 8:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER CONFERENCE: *History of Pesticide Development.* John Ford, Chevron Envrn. Hlth. Cntr. Carr Aud. 8:30-10 a.m.

FAMILY PRACTICE GRAND ROUNDS: *New & Old Oral Agents in Treatment of Diabetes.* John Karam, MRU, SFGH. Carr Aud. 12:30-1:30 p.m.

FRIDAY 10

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

TUESDAY 14

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Renal Tubular Acidosis.* Anthony Portale, Ped. & Med. *Infections of the Urinary Tract.* Barry Kogan, Ped. Urol. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Acute Respiratory Failure.* John Luce, Med., SFGH. Carr Aud. 11:30 a.m.

THURSDAY 16

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Chest Trauma.* Arthur Thomas, Surg., SFGH. Rm. 4H40. 8:30 a.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Essentials of GU Radiology.* Hedvig Hricak-Margulis, Radiol. HSW 303. 5:30-6:30 p.m.

31 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *VAMC Case Presentation.* L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

NEWS BRIEFS

(Administrative positions continued)

Chancellor—Administration. These two vice chancellors serve as Chancellor Krevans' senior vice chancellors and act for him in his absence. All internal administrative functions report to these two vice chancellors.

• Thomas A. Rolinson has been redesignated Vice Chancellor—Resource Management and Planning Services, a title which more accurately reflects the level and scope of his responsibilities and value to the campus.

Developmental genetics research at UCSF important to the understanding of genetic disease, birth defects, and cancer has received a five-year, $2 million grant from the Los Angeles-based Weingart Foundation.

Such research seeks to answer basic questions of how complex organisms develop from single cells. The Program in Developmental Genetics, funded by the foundation, is designed to expand the productivity of five UCSF laboratories currently involved in such studies. The money will be used primarily to support postdoctoral researchers and graduate students at work on existing or allied projects in the labs.

"This program in developmental genetics will complement existing programs, such as the one in cell biology, and make UCSF exceptionally strong in studies of developmental biology," says Ira Herskowitz, PhD, head of the Division of Genetics, professor and vice chair, biochemistry/biophysics, who is principal investigator.

UC expects to ratify both AFSCME and CNA contracts during the month of August. Official news of the effective contract dates will be sent when known to all managers and supervisors.

The UC Regents have voted to begin a "revolving door" plan, whereby the University would utilize standby funds—normally held as investments until disbursed—to provide low-interest mortgages to Academic Senate members.

Established to counter the negative effect of high California housing prices on faculty recruitment and retention, the UC Mortgage Origination Program will enable the University to provide first deed-of-trust mortgage loans to eligible faculty members. The money paid back as interest on these mortgages would replace the interest otherwise earned by the University from these investments.

(Paycheck changes continued)

prior to January, 1984. See your benefits representative for more detailed information.

• All campus employees soon will be able to authorize the University to deposit their net pay directly into their financial institution, under a new system for electronic payroll deposit.

Known as "Sure Pay," the new system, which is scheduled to go into effect in November, will guarantee deposit of earnings on payday, eliminating the need to stand in long lines to deposit paychecks. The Payroll Office will send check stubs to employees' departments on payday. All transactions will be confidential. All employees soon will receive a campus memo detailing "Sure Pay" information.

• All Hospitals and Clinics employees should have received a memo from Director Kerr detailing information on a new biweekly payroll system to begin September 30. Training materials and employee training sessions also are being prepared to acquaint Hospitals and Clinics employees with the new time record form required for biweekly time reporting. Hospital employees who have not received the letter on the new payroll system should notify their supervisors.

For the next six to eight weeks the Chancellor's Conference Room, S 118, will not be available for the campus community to reserve for meetings. The Chancellor's Office staff will be using this area while their offices are under construction. The renovation will allow for more efficient use of space to accommodate the additional program responsibilities taken on by the Chancellor's Office over the last three years, including the UCSF Board of Overseers, the UCSF Foundation Trustees, and numerous special events.

Medical Sciences Rooms 1214 to 1222 and 1263 in the Department of Pharmacology will be under construction at least through the month of September. Barricades are now up in the main corridors of these areas, and noisy concrete drilling has begun.

The campus will be notified at least three weeks in advance of any mechanical or electrical shutdowns, and five days in advance of any other major disturbances. For further information contact Victor Torres or Vince Pelfini at x5343.

The main pick-up and drop-off location for shuttles to UC-Berkeley, SFGH-CED, Laguna Honda, and Aldea San Miguel-Laguna Honda School has moved from in front of the Housing Office at Millberry Union to what was the Muni bus stop at the corner of Third and Parnassus avenues. The Chancellor's Office and the city agreed to change the Muni bus stop to a UCSF shuttle zone in an effort to improve passenger and vehicle safety and to reduce traffic congestion on Parnassus.

Questions and comments may be directed to Robert Cannon at x2496 or Jim Wood at x1511.

The "SKYLINER" is a new direct commuter bus service to UCSF from parts of San Mateo County and San Francisco's Sunset district. The bus service—SKYLINER: SAN BRUNO or SKYLINER: PACIFICA—began in June, and serves nine San Francisco institutions, including UCSF. It has convenient schedules and inexpensive fares.

• The SKYLINER: SAN BRUNO originates at Tanforan Shopping Center and stops in South San Francisco (adjacent to Serramonte Shopping Center), Stonestown Mall, and the Sunset before reaching UCSF.

• The SKYLINER: PACIFICA originates at the Linda Mar park-and-ride lot and stops in Pacifica, Daly City, and the Sunset before reaching UCSF.

Individuals can choose to ride part- or full-time, with four buses to choose from during the morning and afternoon commute hours. For further information and a full schedule call x1511 or visit the Transportation Services Office in Room LS 105.

Twenty-two UCSF physicians have been listed as "The Best Medical Specialists in the US" in the second part of a survey listed in the June issue of the magazine *Town & Country*.

Some 600 MDs across the country were listed in 14 categories. The UCSF MDs were: dermatologists David L. Cram, Ervin H. Epstein, John Epstein, Howard Maibach, Samuel Stegman, Theodore A. Tromovitch, and Denny Tuffanelli; cancer and blood disease specialists Ralph O. Wallerstein, Theodore L. Phillips, and Glenn E. Sheline; endocrinologists Edward Biglieri and Francis S. Greenspan; colon and rectal surgeons Donald Gallagher and Theodore Schrock; reproductive endocrinologists Robert Jaffe and Robert Nachtigall; nephrologist Allen Arieff; kidney transplantation specialist Oscar Salvatierra, Jr.; urologist Frank Hinman, Jr.; rheumatologist Ephraim P. Engleman; orthopaedic surgeon William R. Murray; and plastic surgeon Luis Vasconez.

In addition, the UCSF Hospitals and Clinics was listed as one of 19 outstanding hospitals in the US.

This *Town & Country* guide is an update of a 1978 survey, which queried some 1,000 physicians as to whom they would turn in case of their own illness. More than 300 physicians were queried to make this 1984 version. Part I of "The Best Medical Specialists in the US" appeared in the May issue of the magazine and also listed 22 UCSF physicians.

HONORS & AWARDS

Julius R. Krevans, chancellor: Received an honorary degree of Doctor of Humane Letters from Rush University, Chicago.

Robert A. Fishman, professor & chair, neurology: Named to National Advisory Council of the National Institute for Neurological Communicative Disease & Stroke.

Robert B. Cahan, associate clinical professor, psychiatry: Appointed director of the American Board of Forensic Psychiatry for a three-year term beginning July 1, 1984.

Eugene S. Salazar, associate dean, Student Services: Winner of the 1984 Volunteer Merit Award from the United Way of the Bay Area for his work as chair of the Allocations Committee.

Lucy Crain, associate clinical professor, pediatrics: Appointed to the Committee on Children with Disabilities of the American Academy of Pediatrics.

Daniel G. Vaughan, clinical professor, ophthalmology: The first recipient of the Francis I. Proctor Foundation Distinguished Service Award.

Edward C. Hill, professor & director, gynecological oncology; associate clinical professor, radiation oncology: Elected president-elect of the Pacific Coast Obstetrical & Gynecological Society.

Glenn E. Sheline, vice chair & professor, radiation oncology; research associate, Cancer Research Institute & Laboratory of Radiobiology: The only physician from the US to be appointed a member of the International Commission on Radiation Protection; also chair of ICRP task force on Protection of the Patient in Radiation Therapy. Results to be published as one of the ICRP Annals.

Howard L. Fields, professor, neurology & physiology: Invited lecturer, Royal Society of London, May 1984, and the National Migraine Foundation, June 1984; named to the editorial board of Brain Research; was visiting professor at the Medical College of Ohio, Toledo, March 1984.

Marc E. Goldyne, assistant professor, dermatology & medicine: Elected to membership in the American Association of Immunologists; appointed to the Committee on Research Activities of the American Academy of Dermatology for the term 1984-86.

Matthew LaVail, professor, anatomy: Awarded the 1984 Distinguished Alumnus Award from the University of Texas Graduate School of Biomedical Sciences at Galveston.

Kenneth J. Appel, assistant clinical professor, psychiatry: Received the fourth annual Teacher of the Year Award from the Department of Psychiatry, Pacific Medical Center, during graduation ceremonies in June.

Dale Bredesen, clinical instructor, neurology; **Donna Ferriero,** second-year resident, child neurology: Honored by neurology graduating students as outstanding faculty member and outstanding house officer, respectively.

Steven Raper & **John R. Lake,** research fellows, gastroenterology: 1984 recipients of the American Liver Foundation Postdoctoral Research Fellowship Award. Raper and principal investigator Albert L. Jones will study liver regeneration; Lake and principal investigator Bruce F. Scharschmidt, the formation of bile.

James Kieran, clinical professor, medicine: Honored with the Will Ross Medal for being "the quintessential volunteer" by the American Lung Association.

PUBLICATIONS

George Chierici & Karin Vargervik, professors, growth & development, Center for Craniofacial Anomalies: Co-editors of *Treatment of Hemifacial Microsomia* (Alan R. Liss, Inc., NY, December 1983). **Egil P. Harvold,** former director of the center, is editor.

Francis S. Greenspan, clinical professor, medicine & radiology; **Peter H. Forsham,** professor, medicine & pediatrics: Co-editors of *Basic & Clinical Endocrinology* (Lange Medical Publications, Los Altos, 1983).

APPOINTMENTS

Alan I. Faden: Appointed UCSF professor of neurology, and chief of the Neurology Service, director of the Neurology Research Laboratory, and vice chair of the Department for Academic Affairs at the VAMC. He most recently was a professor of neurology and physiology and chief of the Neurobiology Research Unit at the Uniformed Services University of Health Sciences, Bethesda. He did his neurology residency at UCSF and served as the 1974-75 chief resident. Faden has broad interests in neuropharmacology, especially spinal cord injury.

Jacqueline Wade: Appointed acting assistant director of nursing for the Division of Education & Research, School of Nursing. An associate clinical professor in the Department of Physiological Nursing, she was a respiratory nurse specialist at Herrick Hospital in Berkeley.

IN MEMORIAM

Julius Hiram Comroe, Jr., world-renowned specialist in heart and lung physiology, director emeritus of UCSF's CVRI, pioneering medical educator, author, essayist, and historian of medical research. Regarded as one of the world's leading experts on cardiopulmonary physiology and function, Comroe was the driving force that turned the CVRI into one of the largest and most respected centers of heart and lung research in the world. As its director from 1957 to 1973, he built the Institute into a model center for multidisciplinary research on diseases of the cardiovascular and pulmonary-respiratory systems, and a unique training ground for a generation of doctors and medical researchers. His most lasting contribution, however, was to the growth of the science of physiology in this country, particularly in the fields of pulmonary diseases and cardiology, which has profoundly influenced the practice of medicine and the way in which physicians are trained. Upon his retirement from the CVRI, following more than 40 years as a medical educator and researcher, he embarked on a second career as an historian of medicine, studying how medical developments led to breakthroughs in treatment and diagnosis. A series of essays on the process of medical discovery, written for the *American Review of Respiratory Disease,* was collected in the book *Retrospectroscope: Insights in Medical Discovery* in 1977. In the essays, which Comroe continued to write for the journal until 1980, he shows how the path to breakthrough is littered with false starts, missed opportunities, chance discoveries, and only eventually, and for a very few, success and recognition. Memorial contributions may be sent to the Cardiovascular Research and Education Foundation, Inc., Room M1315, 505 Parnassus Ave.

Gerald G. Gill, clinical professor emeritus of orthopaedic surgery. Recognized internationally for his understanding of low-back disorders and related pain, in the early 50s he developed a surgical technique for correcting spondylolisthesis, a condition caused by overlapping vertebrae. Known today as the respected "Gill procedure," the technique was revolutionary when introduced, and opposed by many in the medical field because it went against the accepted surgical treatment involving spinal fusion. Gill established the UCSF Back Clinic in 1975 and combined his clinical practice with laboratory research directed at preventing the formation of scar tissue around the nerve roots where lumbar disc surgery is performed. He was a founding member of the International Society for Study of the Low Back, the LeRoy C. Abbott Orthopaedic Society, and the American Society for Surgery of the Hand. Memorial contributions may be sent to the Gerald G. Gill Fund for Research in Disease of the Spine, c/o the UCSF Department of Orthopaedic Surgery, Room U 414, 533 Parnassus Ave.
